- **Run 8 company websites and 11 social channels:** built tpplasticusa.com, usa2vn.com, obbgel.com and oceantradingexpress.com solo — information architecture, copy, WordPress build, technical SEO (Core Web Vitals, metadata) and launch.
- **Manage Meta & Google Ads (Search, Display) on \$1,000+ monthly budgets:** lifted lead conversion rate 35% through audience, creative and landing-page optimisation.
- **Built the company's first measurement stack** (GTM + GA4 + Looker Studio), giving sales visibility into which channels close deals rather than which ones collect clicks.
